

## RC Books Page Count

See the "estimate page" for the approximate printing cost of these books

A *new addition to RC* is the "D", or dark function. (If your version doesn't have it, [Download the Free Update.](#)) It allows you to automatically skip any page marked "D" when printing. Many are already marked, but you can add more wherever you want, to save toner and paper. Learn how to use the dark function on the tips page.

Some pages **you may want to skip** are: *Indexes*, bibliographies, and the like, found at the end of some books. Many books have *advertisements* from the publishers located at the front or back. Sometimes they're many pages long. You may also want to skip *duplicate title pages*. You only need one, but sometimes there are two. There are often *extra blank pages* at the front / back of the books, and sometimes after illustrations. Remember that page one should be on the right, so if deleting an ad or blank page messes this up, you can just leave it (or print to Fine Print and you can insert a blank page where needed.) If deleting a certain page caused problems with where page 1 was, then I didn't subtract it from the page count.

Hopefully one of these page counts will match your particular method of printing (or at least come close).

**Column 1** = Printing "as is" from the CDs. This is the actual number of pages you will print (the number in the left column), not the last page number of the book. This includes the publisher's ads, and all pictures.

**Column 2** = Includes all pictures, but no ads.

**Column 3** = Does *not* include ads or dark pictures.

**Column 4** = Missed Darks and Extras - *Darks*: A number of dark, full-page pictures weren't marked "D", but should have been. Those page numbers are listed here for you to mark. (This is the number in the RC software, not on the printed page.) These pages listed here *have* already been subtracted from the totals in column 3. *Extras*: More pages that it's possible skip, that I have *not* already subtracted from column 3. Indexes, references and the like are noted here.
